

WE ARE SCHLEMMER

▶ WHO WE ARE

The Schlemmer Group

Our heart beats in Bavaria. For the past 60 years. Headquartered in Munich, we develop, manufacture and distribute highly specific cable management as well as air & fluid solutions for the automotive and industrial sectors. Worldwide.

You are our driving force – with your company, your products and your customers. We know your heterogeneous markets, understand your complex requirements and provide you with intelligent solutions and services. 24/7.

We pursue this path together with you. Because your success is our future.

Local. Global. Total. Schlemmer.

Powerful

A reliable, strong vehicle infrastructure over the lifetime of the automobile.

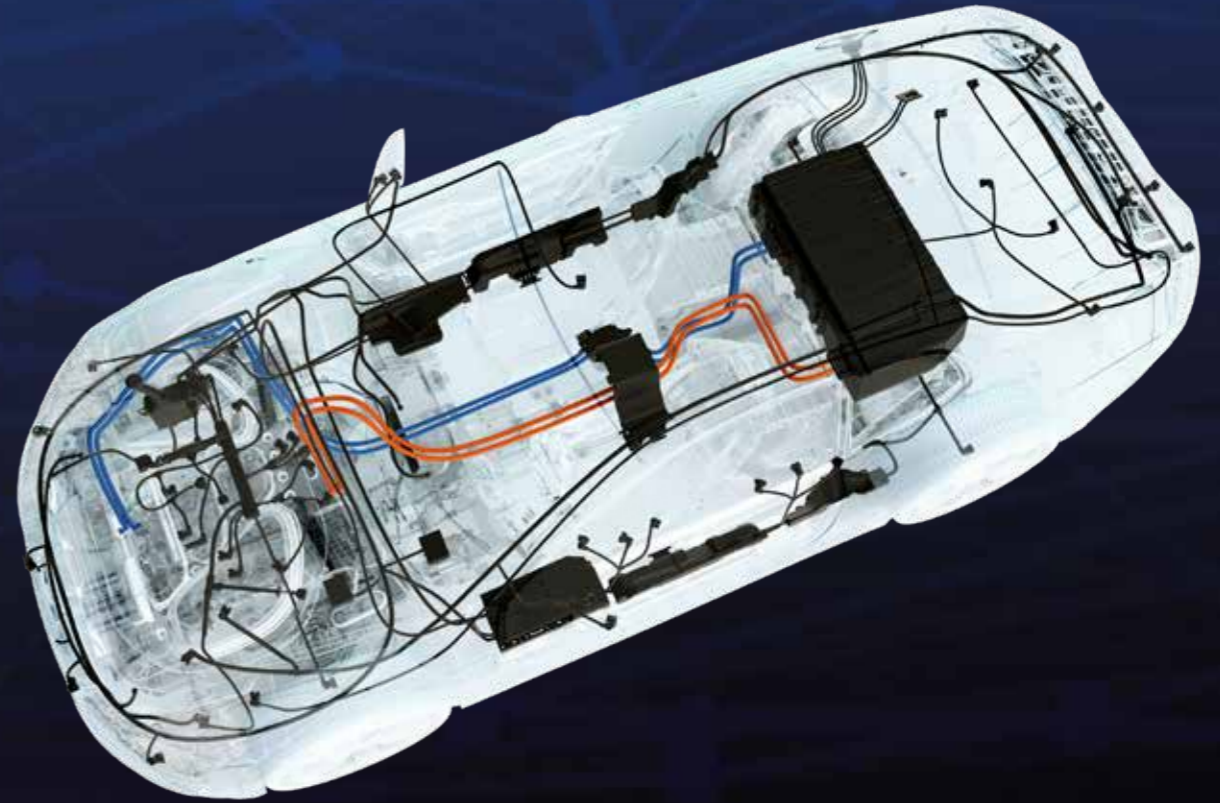

Smart

Innovative solutions cleverly implemented according to the latest technological standards.

Efficient

Cost-effective, time-saving and resource-saving. Sustainability taken to the next level.

VEHICLE INFRASTRUCTURE

Future-oriented Vehicle Infrastructure through Cable and Air & Fluid Management.

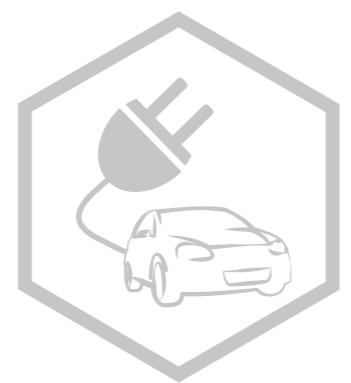

MEGATRENDS

ARE SCHLEMMER'S FRIENDS.

The future firmly in sight.

We know the challenges of change in both the automotive and industrial sectors. Thereby, we focus our strategic activities on current megatrends.

E-Mobility

Connectivity

Safety

Sustainability

OUR TECHNOLOGY. YOUR SUCCESS.

LOCAL. GLOBAL. TOTAL.

▶ LOCAL people

Our more than 3,500 employees make the difference.

One of our greatest strengths? We live an international corporate culture. Employees from more than 22 countries work hand in hand on global projects. On the basis of a trusting and professional cooperation, we support you as an all-in-one partner in individual product development and production processes. Whether directly on site or from a remote location, our competent employees are your reliable contact.

**International
project teams**

**Consulting,
development & design**

**Technical support
also with own
production equipment**

▶ GLOBAL production

We are on-site worldwide with 25 production sites and a mobile factory.

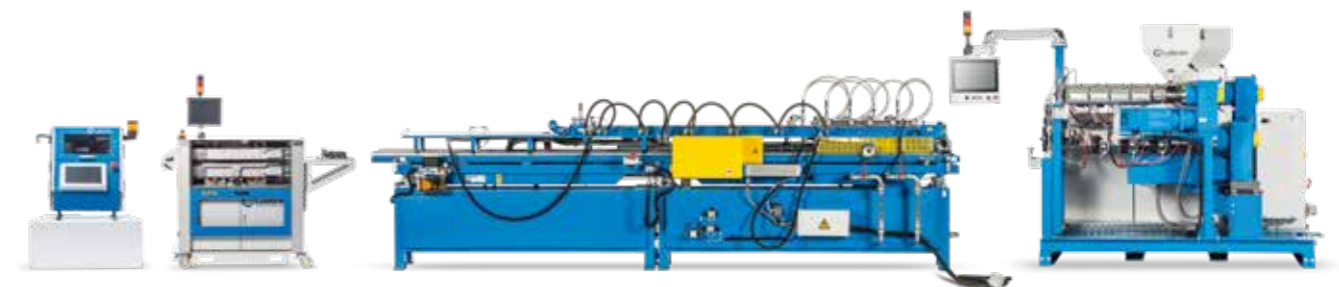

Our global footprint currently covers more than 20 countries. Combined with the intelligent control of processes, we are thus able to always integrate the optimal location for our customers. With our production facilities around the globe, we are never more than one day away from you by lorry.

**Over 360 injection
moulding machines**

**More than 170
extrusion lines**

Global toolmaking

**State-of-the-art
thermoforming and
assembly systems**

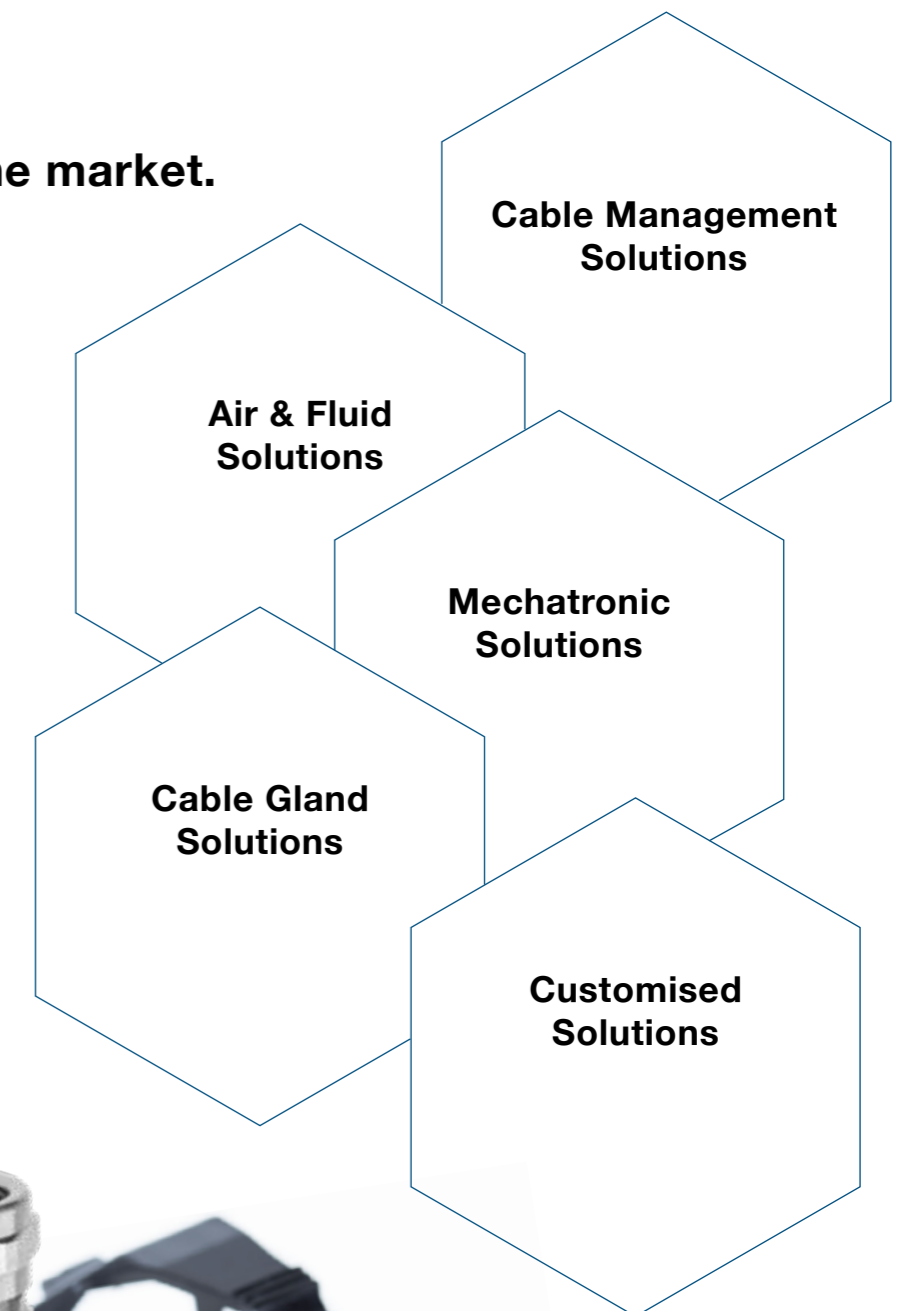

TOTAL

products

We offer over 80,000 product solutions on the market.

More than 60,000 customer-specific solutions come from over 20,000 technical system components. Our Schlemmer products are installed in almost every production vehicle. Through synergies in development and systematic product combinations, we also create options for a multitude of other business fields.

The Americas

With our sites in North America, Mexico and Brazil, we are present in the economic area „The Americas“, and as a global partner we offer our customers intelligent, future-oriented solutions. 24/7.

Europe | Middle East | Africa

With headquarters in Munich and a development centre in Europe as well as production facilities and agencies in strategically favourable locations in the EMEA region, our products find their way from there all over the world.

Asia | Pacific

Our development centre in China as well as sites throughout the APAC region allow us to meet the challenges of the future hand in hand with our customers – today.

WORLDWIDE

SCHLEMMER

for lateral thinkers.

We see opportunities, where others draw the line.

From our own corporate fashion, our mascot Sepp, our annual employee cookery book, up to furniture creations or jewellery and clothing collections made from Schlemmer products, we give free reign to our creativity and also swim against the current on some occasions. With clear goals in mind, we think outside the box when it comes to cooperating with you, and also implement unusual, individual solutions based on the zero-error principle.
