

# Bachelor's/Master's Program

## Plastics Engineering sector

Location Poing near Munich

In coordination with our engineering department the timing and professional contents of your internship are subject to mutual agreement.

### Possible topics:

- Stress behavior of high-temperature plastics in tube extrusion
- Reduced relaxation behavior after freezing cycles in tubes
- Use of bio plastics in tube extrusion

### Requirements:

- You are a student of plastics engineering, chemistry or mechanical engineering
- You possess solid PC skills (MS-Word, Excel, PowerPoint) and possibly initial CAD experience
- You are success-oriented, possess good team skills and have a good command of English and German

With over 1560 employees worldwide and 35 international locations the Schlemmer Group is a company with activities in the automotive supplier industry, mechanical engineering, electrical equipment wholesale and renewable energies geared for expansion and growth.

### What you can expect from us:

- Interesting topics and challenging tasks from the field of product development
- Flexible time/work arrangement (hourly basis is possible as well)
- Active professional support by a young, committed team of engineers and technicians
- PC workstation for your exclusive use (depending on tasks assigned, work may also be performed at home)
- Adequate remuneration
