

REACH – Certificate of Compliance

Regulation (EC) No. 1907/2006 of December 18th, 2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and the candidate list, in the latest version with all annexes, in particular Annexes XIV and XVII.

2020, July 30th

Dear customer,

As a manufacturer of products Schlemmer is a downstream user according to Article 3, Paragraph 13, REACH. Based on the examinations of the current feedback of our suppliers, some of our products contain the following Substances of Very High Concern (SVHC), published on the latest Candidate List, above the threshold of 0.1 % by weight:

- Lead (CAS-No.: 7439-92-1; EC-No.: 231-100-4)
threshold ≤ 3.5 %, contained in our brass products
- Imidazolidine-2-thione (CAS-No.: 96-45-7; EC-No.: 202-506-9)
threshold < 0.4 %, contained in our chloroprene sealings
- Perfluorooctanoic acid (PFOA), its salts and PFOA precursor compounds are not used as feedstock or additives - Delegated Regulation (EU) 2020/784 amending Annex I of Regulation (EU) 2019/1021 (EU POP Regulation)

Since we are not aware of the applications of our products, it is necessary to verify, if the specific application is restricted due to the Annex XVII of REACH.

In case we receive any information, that any of our products contain further listed substances above the threshold of 0.1 % by weight, we will immediately inform you according to Article 33 REACH. Our current REACH Certificate of Compliance can be found here:
